This upper limit of registered capital allowed by the Capital Markets Board is valid for the years 2021 through 2025 (for 5 years). Even if the upper limit of registered capital is not yet reached by the end of 2025, in order for the board of directors to pass capital increase resolutions after 2025, an authorization must be granted by the general assembly for the previously permitted upper limit or a new upper limit, covering a new period not exceeding 5 years, provided that the permission of the Capital Markets Board is obtained. In case such authorization is not granted, the capital cannot be increased by the board of directors' resolution.

The issued capital of the Company is TL 175,000,000 (one hundred seventy five million). This capital has been fully paid up, free from any collusion. The Company's issued capital of TL

175,000,000 is divided into 55,092,337 (fifty-five million ninety-two thousand three hundred thirty-seven) Group A registered shares, each with a nominal value of TL 1 (one) and 119,907,663 (one hundred nineteen million nine hundred seven thousand six hundred and sixty three) Group B registered shares, each with a nominal value of TL 1 (one).

The board member whose appointment is approved by the general assembly shall serve for the remaining term of the board member whose vacancy is filled. When there is a vacancy, a candidate shall be jointly nominated by all serving board members who are nominated and appointed by the Group A shareholders, and such candidate shall be appointed by the board of directors' decision and the appointment shall be submitted for the approval of the following general assembly (instead of a candidate being nominated and appointed by the Group A shareholders).
